

SNEHAL PAWAR

Pune, Maharashtra | +91 7057660923 | snehalpawar107@gmail.com | [linkedin.com/in/snehalpawar01](https://www.linkedin.com/in/snehalpawar01)

PROFESSIONAL SUMMARY

Detail-oriented Entry-Level Data Analyst with hands-on skills in SQL, Python, Power BI, and Excel. Experienced in end-to-end data workflows — extraction, cleaning, transformation, EDA, visualization, and KPI reporting. Proficient in building interactive dashboards, DAX measures, Power Query, and data modeling across retail and healthcare domains. Certified in Data Analysis, SQL, Python, Power BI, Statistics, and Generative AI. Seeking to leverage strong analytical and visualization skills to deliver actionable business insights in a data-driven organization.

TECHNICAL SKILLS

Programming & Query Languages: SQL (PostgreSQL, MySQL, Joins, Aggregations, GROUP BY, HAVING, Subqueries, CTEs, Window Functions, CASE Statements), Python (Pandas, NumPy)

Data Analysis & Visualization: Data Analysis, Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, KPI Analysis, Trend Analysis, Data Visualization

BI & Reporting Tools: Power BI (DAX, Power Query, Data Modeling, Interactive Dashboards), Microsoft Excel (Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Conditional Formatting)

Concepts & Processes: Business Intelligence (BI), ETL, Data Modeling, Dashboard Development, Report Automation, Stakeholder Reporting

Business Analytics: KPI Tracking, Sales Analysis, Customer Analysis, Business Insights, Data-Driven Decision Making

PROJECTS

Super Store Sales Analysis Dashboard | Power BI, DAX, Power Query, MS Excel

- Designed an interactive Power BI dashboard analyzing \$1.6M in Sales, Profit, Orders, and Quantity — enabling stakeholders to monitor performance across regions, categories, and segments.
- Built KPI cards, YoY trend charts, sub-category breakdowns, and a geospatial map; implemented ETL pipeline in Power Query (data cleaning, null handling, type standardization).
- Created advanced DAX measures for time intelligence (YTD, MoM growth), profit margin KPIs, slicers, drill-through pages, and a time-series forecasting page for self-service analytics.

Blinkit Grocery Sales Dashboard | Power BI, SQL, DAX, MS Excel

- Built an end-to-end sales analytics dashboard tracking \$1.20M in Revenue, Average Sales, Item Count, and Customer Ratings — delivering insights across outlet types, categories, and tiers.
- Wrote optimized SQL queries (JOINS, GROUP BY, Subqueries, Aggregations) to extract and transform raw sales data; developed dynamic DAX measures with interactive filters for category-level analysis.

Skin Disease Analysis & AI Prediction System | M.Sc. Final Project | Python, Flask, TensorFlow, React.js, Bootstrap

- Analysed and preprocessed HAM10000 dermoscopy dataset (~10,000 records, 7 skin disease categories); performed data cleaning, class imbalance handling, missing value treatment, and label encoding using Python and Scikit-learn.
- Built and deployed a MobileNetV2-based image classification model (TensorFlow/Keras) achieving ~83% validation accuracy; integrated risk-level mapping and confidence scoring; developed Flask REST API and React.js + Bootstrap 5 frontend.

EDUCATION

M.Sc. Computer Science

Modern College of Arts, Science and Commerce (Autonomous), Pune

2024 – 2026
pursuing

B.Sc. Computer Science

TC College of Arts, Commerce and Science, Baramati

2020 – 2023
CGPA: 8.1

CERTIFICATIONS

- Data Analysis & Data Science with Generative AI – TopMentors, 2024 | Modules: SQL, Python, Power BI, Statistics, Machine Learning, Generative AI & LLMs
- SQL (Basic & Intermediate) – HackerRank, 2024 | Verified Certificate
